

DMIN Cohort 2014

Important deadlines

Please see [Academic Calendar](#) for Pre-registration dates.

Electives must be **APPROVED** by the Program Director and **REGISTERED** for in the regular semester pre-registration period. Once a semester has begun, you must **WAIT** to register for your elective until the next registration period.

Registration Information

PLEASE remember to keep in conversation with your advisor before you register! You do not want to be surprised by six remaining required credits.

When in doubt regarding intensive dates - your advisor is the final word.

If you have completed your regular course work and are not registered for an elective then you **MUST REGISTER** for continuation status. The exception to this is for Summer semesters.

Do not forget, Thesis Project Research I and II must be registered for before you may graduate. You can take them in one semester or break them up over two semesters.

Registration Process

Meet with your academic advisor (not your thesis advisor) to discuss your progress through the program and your academic performance. This is when you should discuss your plans for elective courses.

After you have met with your advisor, he/she will remove your registration lock on your Populi account.

Log in to Populi. Register for the appropriate classes or continuation status during the pre-registration period.

Fees, financial aid, and prior balances will be applied to your account during pre-registration. Please check these over for errors.

After pre-registration you will be able to make your payment and complete your registration.

DMIN Cohort 2014
